**Re: Showroom Upgrade | 64 Victoria Street, Alicetown, Lower Hutt**

---

Dear Bill and Jan,

I wanted to take the time, even during this busy Christmas period, to thank your company for the outstanding redevelopment of the existing building at 64 Victoria St into our new Gazley Showroom in Alicetown.

Your management and construction of the entire upgrade of the existing building has been "a cut above the rest". As mentioned to you, I have engaged various contractors over the years to undertake similar upgrades but none have achieved the high standards you have demonstrated throughout this project.

Bruce, your Site Manager and his site team have done an amazing job turning the tired old building into a modern professional showroom that I am extremely proud of. As you know, when opening up the old building some snags and surprises do surface, but your team handled these efficiently and expertly but still managing to deliver the project by the crucial deadline.

The point of difference I have enjoyed is being able to deal with you as owners with your hands-on and professional approach to make things flow and happen. The quality and integrity of your company has impressed me.

Therefore, it is without hesitation that I would engage company for further developments I am involved in, but also freely recommend your company to anyone interested in undertaking any commercial construction or development.

I wish you and your team a very Merry Christmas -

Yours faithfully,

  
Myles JE Gazley  
Managing Director
