To whom it may concern

Reference for:- **Peryer Construction Wgtn Ltd, Upper Hutt**

It is with pleasure that I write a brief statement in support of Peryer Construction Ltd.

Lyall Bay School has undergone a continuous series of major building projects spanning a two year period, since commencement mid-way through 2012. Peryer Construction has been our preferred construction contractor throughout some \$2.5 million of works.

Regular site meetings have ensured that progress reports have been timely, and on budget. These meetings have always been attended by Bill Peryer (company figurehead), Les Williams (contract manager), and the site foreman. I have been impressed by their clear communication and obvious commitment to overseeing a quality job. They work very well together and are clearly client focused.

Their on-site construction performance has been first class. Working in a busy school environment has never been an issue, and the safety of school staff and the children has been at the forefront of their minds throughout. Without exception, construction personnel have all been friendly, polite, and well presented. They appear to work with good quality equipment, and even the builder vehicles are well presented.

Very few deficiencies have been recorded at the end of each project stage, again pointing to high quality workmanship and supervision.

Off-site administration has been simple, accurate, friendly and clearly communicated.

I would have no hesitation in recommending Peryer Construction Wgtn Ltd to anyone who is considering a company who obviously prides itself in the work they do, and truly values their clients.
